

ZOE CO

cozoe@med.umich.edu | www.zoe-co.com

EDUCATION **University of Michigan, Ann Arbor, MI** **08/2023 -- PRESENT**
Ph.D.: Health Infrastructures and Learning Systems (HILS)
Department: Learning Health Sciences
Advisor: Gretchen A. Piatt, PhD, MPH

University of Pittsburgh, Pittsburgh, PA **08/2012 -- 04/2017**
B.S.: Biological Sciences
Certificate: Conceptual Foundations of Medicine

RESEARCH EXPERIENCE **University of Michigan** **03/2024 -- PRESENT**
College of Pharmacy
Role: Graduate Student Research Assistant
Principle Investigator: Corey Lester, PharmD, PhD, MS
Study Description: Assessment and pilot of an *artificial intelligence (AI)* tool that provides decision support to aid pharmacists in the medication verification process. During the study sessions, pharmacists performing the medication verification task in Labvanced, which is a software used to track the eye movements of participants as they complete the task.

- Screen potential study participants for the pilots through telephone calls.
- Oversee study sessions with each study participant to ensure any technical difficulties are resolved.
- Participate in mock study sessions using Labvanced to identify and solve potential technical barriers that participants may encounter during study sessions.

University of Utah **01/2024 -- PRESENT**
Department of Internal Medicine, Division of Epidemiology
Role: Independent Research Consultant
Principle Investigator: David C. Classen, MD, MSc

- Develop strategies for management and maintenance the clinical content for the Leapfrog Group's inpatient **Computerized Physician Order Entry (CPOE) Evaluation Tool** in collaboration with research pharmacists and clinical content experts. The CPOE Evaluation Tool assesses hospital's ability to detect and prevent serious medication errors.

- Lead the piloting of 4 new testing modules for the CPOE Evaluation Tool with 5 academic medical centers across the country.
- Provide strategic direction and feedback about the clinical content and testing methodology for CPOE Evaluation Tool based off analyses about hospital performance in the tool.

Brigham and Women's Hospital

10/2021 – 08/2023

Department of General Internal Medicine

Role: Research Project Coordinator

Principle Investigator: David W. Bates, MD, MSc

- Developed and implemented 4 new testing modules for the Leapfrog Group's *Computerized Physician Order Entry (CPOE)* Evaluation Tool targeting different capabilities of clinical decision support, targeting usability, deep vein thrombosis prevention, clinical overuse based on the Choosing Wisely® recommendations, and medication reconciliation.
- Led, developed, and piloted a new version of the CPOE Evaluation Tool targeted at ambulatory medication clinical decision support, which was piloted with 10 outpatient clinics across the country.
- Analyzed and disseminated results from the CPOE Evaluation Tool for conference presentations and peer reviewed publications. This includes 7 conference presentations, 2 co-authored and 3 first-authored peer reviewed publications related to the CPOE Evaluation Tool.

Brigham and Women's Hospital

10/2017 – 02/2021

Department of General Internal Medicine

Role: Research Assistant I & II

Department: General Internal Medicine

Principle Investigator: David W. Bates, MD, MSc

- Managed and maintained the clinical content for the Leapfrog Group's inpatient CPOE Evaluation Tool, which is used by over 2000 hospitals annually to assess the ability of their *electronic health record (EHR)* systems to detect and prevent medication-related errors.
- Contributed to 6 other projects related to patient safety and clinical informatics. Notable projects include: (1) implementation of a problem oriented EHR for clinical data retrieval, (2) a scoping review about the use of artificial intelligence decision support tools to detect adverse drug events, and (3) derivation of a clinical risk score to predict hypoxia, ICU admission, and death among COVID patients.
- Promoted from RA I to RA II on 02/2019

AWARDS & RECOGNITIONS

University of Michigan – Rackham Graduate School

03/2024

- Rackham Conference Travel Grant - \$900

Journal of the American Medical Informatics Association (JAMIA)

- Featured journal article in Volume 27, Issue 8, August 2020 for “*The tradeoffs between safety and alert fatigue: Data from a national evaluation of hospital medication-related clinical decision support*”

Brigham and Women’s Hospital

06/2019

- *Honorable Mention* for Research at the Division of General Internal Medicine’s Research Day, nominated by David W. Bates, MD, MSc

Mass General Brigham

11/2018

- *Partners In Excellence* Award for Research on “Building Safer Electronic Health Records”

PROFESSIONAL MEMBERSHIPS

American Medical Informatics Association

08/2018 – PRESENT
